

The most important thing we build is trust.

GMS introduces a universal enclosure to provide a convenient container and maximum protection from the environment for critical microwave link equipment. Numerous options to the basic enclosure customize it for use with all GMS microwave radios and accessories. It can be supplied with a universal regulator for power input from 90 to 260 V (output: up to 60 W at 12 V DC) and/or a 7" color monitor. The Universal Enclosure is pre-drilled and pre-threaded to accommodate GMS radios and accessories. The GMS Universal Enclosure quickly mounts onto a tripod or roof edge for use with a large variety of antenna for video surveillance, sports and remote broadcasting applications.

Specifications:

Basic:

Size: (inches)	14 x 12 x 7
Size: (cm)	35.6 x 30.5 x 17.8

Box Options:
