

5 August 2010

COBHAM

The most important thing we build is trust

AVIONICS AND SURVEILLANCE DIVISION
End to End avionics and covert surveillance solutions

DEFENCE SYSTEMS DIVISION
Critical technologies for network-centric operations

MISSION SYSTEMS DIVISION
Life Support and Mission Equipment for Land, Marine and Air

AVIATION SERVICES DIVISION
Operates, modifies and maintains more than 150 fixed and rotary wing aircraft around the world

2010 Interim Results

Summary Profit and Loss Account

Full Year 2009 £m		H1 2009 £m	H1 2010 £m	Growth
1,880.4	Revenue	952.1	963.4	1.2%
337.0	Trading Profit	161.7	167.2	3.4%
17.9%	Margin	17.0%	17.4%	0.4pts
295.3	Profit before Taxation	141.2	144.6	2.4%
18.80p	Underlying Earnings Per Share	8.96p	9.29p	3.7%
5.3%	PV Spend %	5.4%	4.7%	(0.7)pts

Order book £2.5bn – order intake up 5% in technology divisions

Earnings Per Share Growth

Cash Flow and Dividend

Full Year 2009 £m		H1 2009 £m	H1 2010 £m	Growth
330.9	Trading Profit (ex. JV)	159.2	164.7	3.5%
293.2	Operating Cash Flow	139.1	135.1	(2.9%)
88.6%	Operating Cash conversion	87.4%	82.0%	(5.4)pts
213.6	Free Cash Flow from Business	95.1	102.7	8.0%
228.7	Decrease in Net Debt	199.8	39.3	
5.45p	Dividend per Share	1.48p	1.628p	10.0%

Net Debt £373.3m, Net Debt:EBITDA 0.9x

Technology Divisions' Revenue Growth

Technology Divisions' Organic Revenue Growth Cycle Over the Medium Term

4 Year Full Year CAGR 7.4%, 5 Year Half Year CAGR 6.3%

Excludes FX, Acquisitions and Disposals. Prior year are proforma numbers for illustration purposes

Cobham Avionics and Surveillance

	2009 H1	Acq Mix / Translation FX	Organic Growth	2010 H1
Revenue £m	254.8	(5.2)	(12.6)	237.0
Trading Profit £m	42.5			38.5
Margin	16.7%	0.2pts	(0.7)pts	16.2%

**37% revenue defence/security
35% US revenue**

Excludes FX, Acquisitions and Disposals. Prior year are proforma numbers for illustration purposes

- Continued demand for surveillance equipment but uneven orders and revenue in H1
- Strong sales of the Minehound IED detector
- New SATCOM products and market opportunities with some signs of market improvement
- Small aircraft and helicopter markets remain fragile – unlikely to improve significantly in 2010

Cobham Mission Systems

	2009 H1	Acq Mix / Translation FX	Organic Growth	2010 H1
Revenue £m	162.7	(3.4)	12.0	171.3
Trading Profit £m	27.0			29.1
Margin	16.6%	-	0.4pts	17.0%

**87% revenue defence/security
67% US revenue**

- Successful delivery of next generation air refuelling pods – good order backlog
- Increasing deliveries of Eurofighter weapons carriage and release products
- Orders and revenue from 2009 Air Warrior cooling systems IDDO

Excludes FX, Acquisitions and Disposals. Prior year are proforma numbers for illustration purposes

Cobham Defence Systems

	2009 H1	Acq Mix / Translation FX	Organic Growth	2010 H1
Revenue £m	436.6	(9.2)	6.4	433.8
Trading Profit £m	74.9			79.9
Margin	17.2%	0.3pts	0.9pts	18.4%

96% revenue defence/security
89% US revenue

- Growth held back by delays in award of some contracts
- First Missile Defence Agency IDIQ awards under MIDAESS – Cobham successful
- Good performance from microwave, composites and tactical communications in H1 – C4ISR a priority market for customers

Excludes FX, Acquisitions and Disposals. Prior year are proforma numbers for illustration purposes

	2009 H1	Acq Mix / Translation FX	Organic Growth	2010 H1
Revenue £m	111.4	14.8	5.1	131.3
Trading Profit £m	15.3			15.7
Margin	13.7%	(0.3)pts	(1.4)pts	12.0%

Commercial Aerospace/ GA
33%

Non US defence/ Security
67%

**67% revenue defence/security
27% UK revenue, 65% Australia**

- Good growth in Australia from government Sentinel contract
- Australian regional services benefiting from improving economy – further opportunities for growth
- More uncertain outlook in UK – potential for broader participation in MFTS

Excludes FX, Acquisitions and Disposals. Prior year are proforma numbers for illustration purposes

-
- Trend in orders and revenue is positive
 - Robust margin control in H1; resilient earnings
 - Strong operating cash conversion; £103m of Free Cashflow
 - Business efficiency opportunities underpin 2010 and beyond
 - Continued 10% increase in dividend

Agenda

-
- Introduction

Andy Stevens

Chief Financial Officer

- Business Review

Andy Stevens

- Q&A

-
- **The comprehensive business review considered:**
 - Our markets
 - Our operational delivery

 - **We asked ourselves how:**
 - Further synergies and cost efficiencies can be extracted
 - Future integration and standardisation savings should be invested
 - To refine our portfolio towards the areas where we have the greatest competitive advantage and opportunities for growth
 - What the appropriate focus is for acquisitions

 - **It delivered the following five strategic priorities**

- 1 Focus on Defence, Security & Commercial markets**
 - Maintain an appropriately focused portfolio on the defence, security and commercial markets, such that we can add value and manage risk across the portfolio
- 2 Sell technically differentiated products & services**
 - Sell technically differentiated products and services that meet customer's needs in markets that have attractive characteristics, and in which we can maintain a sustainable competitive advantage
 - Continue to provide core Tier 3 capabilities and selectively offer Tier 2 to meet customer needs
- 3 Build sustainable scale positions**
 - Develop and maintain top 3 positions in our markets
 - Build or maintain scale positions in these markets to ensure we have the necessary scale to support investment, maintain market leadership and deliver long term business growth
- 4 Deliver operational excellence**
 - Achieve Excellence In Delivery for our customers, capturing cost synergies through simplifying and standardising processes, integrating operations and building operational capabilities
 - Attract, develop and retain superior talent and manage it across the business
- 5 Actively manage the portfolio**
 - Actively manage the portfolio, exiting businesses that do not fit with our strategy
 - Acquire businesses that build scale, allow us to exploit our existing capabilities in adjacent segments or deliver distinctive technologies or capabilities to accelerate our organic growth

1. Focus on Defence, Security and Commercial Markets

Growth outlook: ~2% CAGR
Variation by programme (e.g., JSF)

Growth outlook: ~7% CAGR
Variation by country & sub-segment

Growth outlook: ~4% CAGR
Variation by platform (e.g., 787)

Sources:

- i. U.S. DoD budget data: comprised of FY2005-FY2011 Department of Defense budget plans
- ii. International spending figures: Stockholm International Peace Research Institute (SIPRI), World Monetary Fund

Sources:

- i. U.S. Government : 2011 U.S. Office Of Management And Budget Report – Analytical Perspectives, Budget Of The U.S. Government
- ii. Third Party Research: Homeland Security Research Corporation, Society General via Cross Asset Research, Morgan Keagan, Frost and Sullivan, International Biometric Group
- iii. Publically available information from company annual reports: L-1 identity solutions, Smiths Detection

Sources:

- i. OEM platform sales revenue: (Boeing, Airbus, Embraer)
- ii. Third party research: Ascend, Aerostrategy, Forecast International
- iii. Multiple News Agencies: (used to track up to date delivery orders in CSP database)

Defence, Security & Commercial markets are growing 2-7% overall over the next 5 years

Market Growth Rates For Our Technology Businesses Over The Next 5 Years

Growth rates of our 31 major market segments

- 10 Strategic Business Units in our technology businesses with 31 major market segments (e.g., land satcom, air refuelling equipment)
- We have assessed growth by segment for the next 5 years based on internal and external market research

- There is some market volatility
- Long term prospects remain good
- Improving programme positions
 - Predator/ Reaper
 - F-35
 - Aegis combat system

We remain positioned in faster growing markets

Revenue Analysis

60% revenue from the USA - 77% from defence/security markets

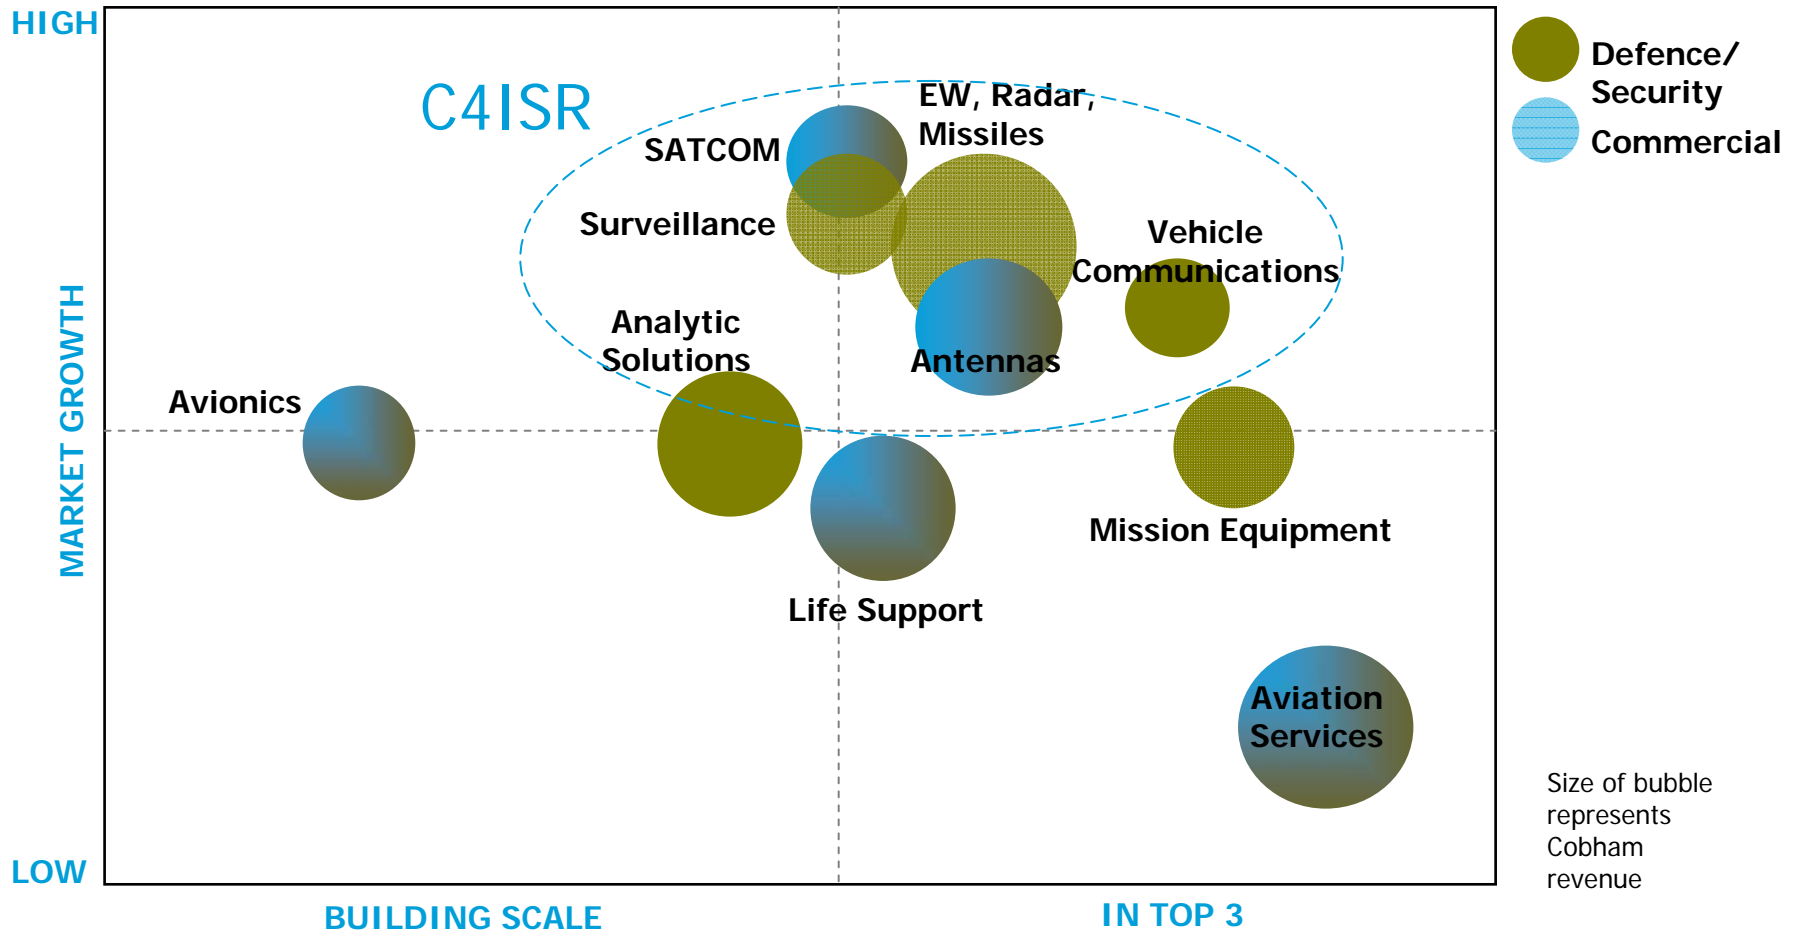

2. Sell Technically Differentiated Products & Services

- Investment in PV is fundamental to the Group's strategy
- Our investment will match market opportunities
- It is customer driven and focused on bringing new or improved products to market

Will continue with our core Tier 3 capabilities and selectively offer Tier 2

3. Build Sustainable Scale Positions

We are looking to build scale in our markets

4. Deliver Operational Excellence

COBHAM

**We Have Been Steadily Integrating And Developing The Organisation Since 2005
Next chapter of evolution is about Excellence in Delivery**

- A Implementing a Standard Operating Framework (SOF)**
 - SOF covers all the standard processes, tools and practices we will use
 - We piloted a new lean production system
 - It has confirmed the potential for a 25-30% increase in production capacity

- B Integration of facilities**
 - We have completed a number of integration projects
 - We are extending that effort to the next tranche of sites
 - Projects to date have delivered savings of 5-10% of sales
 - The SOF will provide a standard approach to integrating acquisitions

This will free up more time for our people to focus on their customers, technology & talent

A Implementing a Standard Operating Framework (SOF)

Key Performance Indicator	% Change Since 2009	Total Expected Change From 2009 Baseline
Capacity increase	11%	25%
Manufacturing lead time reduction	30%	50%
Overhaul lead time reduction	32%	60%
Inventory turns increase	20%	40%
Floor space reduction	30%	35%

We Have Successfully Piloted Our SOF - Production System Improvements achieved on an already mature product line – highlighting further potential

B Integration Of Facilities

COBHAM

- We Will Establish A Set Of Principal Manufacturing Sites each will
 - Be at least £100m turnover to achieve the appropriate scale
 - Apply a Standard Operating Framework for the production system
 - Have the same standard organisational structure
 - Use the same instance of Enterprise Resource Planning (ERP) system
 - Deliver excellent operational performance

We Will Establish A Set Of Principal Manufacturing Sites

Indicative Programme Benefits And Costs For Excellence In Delivery

- Step improvement in delivery performance to our customers
- Approximately two year payback from one-off costs of some £130-£150m
- Efficiency savings will be deployed to
 - Increase PV/technology
 - Improve infrastructure
 - Give customers better value for money
 - Enhance profitability
- £35m of costs in H2 will fund early stages of the programme, with estimated efficiencies of £10m underpinning 2010

5. Actively Manage The Portfolio

Acquisitions

We are actively pursuing acquisitions that:

1. Have attractive technology and market positions
2. Deliver attractive growth and investment returns
3. Deliver synergies with our portfolio and accelerate our strategy

Divestments

We will exit areas over time where:

1. We cannot build a number 1, 2 or 3 position organically or through acquisition
2. We cannot deliver attractive growth and returns
3. Technical differentiation becomes less important
4. We cannot deliver synergies with the rest of our portfolio

Identified a small number of businesses and product lines that we will eventually divest

-
- Resilient first half results with underlying EPS growth of 4%
 - Expect organic growth to increase in the second half
 - Some market uncertainties remain
 - Strategy review completed
 - Focus on defence, security and commercial markets
 - Sell technically differentiated products and services
 - Build sustainable scalable positions
 - Deliver operational excellence
 - Actively manage the portfolio

Our strategy positions us well for further growth

295.3	Underlying profit before taxation	141.2	144.6

Underlying	To assist with the understanding of earnings trends, the Group has included within its published statements trading profit and underlying earnings results. Trading profit and underlying earnings have been defined to exclude the impacts of certain transaction related adjustments, portfolio restructuring costs, the mark-to-market of currency instruments not realised in the period and impairments of goodwill. Transaction related adjustments excluded from trading profit and underlying earnings include the amortisation of intangible assets recognised on acquisition, such as customer relationships, technology and software and the like, legal and professional fees relating to acquisition and disposal activity, unless otherwise treated as costs of disposal, the writing off of the pre-acquisition profit element of inventory written up on acquisition and costs charged post acquisition, which relate to purchasing the shares of acquired companies. Portfolio restructuring costs comprise exceptional profits arising on business divestments, completed in prior years, which have funded exceptional costs associated with the restructuring of the Group's business and site integrations. Both the divestments and the integration activity originate from the Group's strategy announcement in September 2005.
Underlying Tax Rate	The underlying tax rate is based on underlying profit before tax, excluding the share of post tax income from joint ventures.
Free Cash Flow	Free cash flow is cash generated by the business before movements in funding and FX, acquisitions and disposals and dividends to shareholders
Free Cash Flow per share	Defined as free cash flow/average number of shares in issue
Operating Cash Flow	Operating cash flow is defined as cash generated from operations, per the consolidated cash flow statement, adjusted for cash flows from the purchase or disposal of fixed assets. Operating cash conversion is defined as operating cash flow as a percentage of trading profit, excluding profit from joint ventures.
Organic revenue growth	Organic revenue growth is defined as revenue growth stated at constant translation exchange, excluding the incremental effect of acquisitions and disposals.
PV Investment	Company funded R&D expenditure as a percentage of technology division revenues
Technology divisions	Cobham's technology divisions comprise Cobham Avionics and Surveillance, Cobham Defence Systems and Cobham Mission Systems

Cautionary Statement

For the purposes of the following disclaimers, references to this “document” shall be deemed to include references to the presenters’ speeches, the question and answer session and any other related verbal or written communications.

This document contains certain “forward-looking statements” with respect to the financial condition, results of operations and business of Cobham plc (Cobham) and to certain of Cobham’s plans and objectives with respect to these items. Forward-looking statements are sometimes but not always identified by their use of a date in the future or such words as “anticipates”, “aims”, “due”, “could”, “may”, “should”, “expects”, “believes”, “intends”, “plans”, “targets”, “goal”, or “estimates”. By their very nature, forward-looking statements are inherently unpredictable, speculative and involve risk and uncertainty because they relate to events and depend on circumstances that may or will occur in the future. There are various factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include, but are not limited to, changes in the economies, political situations and markets in which the Group operates; changes in government priorities due to programme reviews or revisions to strategic objectives; changes in the regulatory and competition frameworks in which the Group operates; the impact of legal or other proceedings against or which affect the Group; changes to or delays in programmes in which the Group is involved; the completion of any acquisitions and divestitures and changes in currency exchange rates. All written or verbal forward-looking statements, made in this document or made subsequently, which are attributable to Cobham or any other member of the Group or persons acting on their behalf are expressly qualified in their entirety by the factors referred to above. Cobham does not intend to update these forward-looking statements.
