SOLO4 Robust Clip-on 1W Amplifier

The Robust SOLO4 Bolt-on 1W Amplifier from Cobham Tactical Communications and Surveillance provides increased range for our robust range of digital video transmitters.

The narrow bandwidth associated with COFDM means that this unit provides exceptional spectral efficiency allowing multiple high quality video links to operate within the same bandwidth traditionally held by a single analogue video signal. The multicarrier modulation scheme has the ability to cope with severe channel interference such as fading and multi-path, making it ideal for surveillance operations.

The Robust 1W Amplifier combined with the Robust SOLO4 Transmitter provides a rugged non line-of-sight (NLOS) link over a range of around 1km with non-directional antennae, and gives line-of-sight (LOS) operation to several kilometres, whilst the sealed IP 67 rated aluminium enclosure allows the unit to be deployed in external environments for prolonged periods of time.

Specification:

Input

RF In TNC
12V DC In 3 pin amphenol

Output

RF Output TNC

RF

Frequency Bands 1.25 to 2.50 GHz
3.10 to 3.40 GHz

Power In 100mW

Power Out 1W

Physical

Dimensions
L & S-Band L 150mm, W 116mm, H 43mm
C-Band L 199mm, W 116mm, H 43mm

Power

DC input 10 to 16V
Power Consumption 10W typical

Environment

Temperature Range -20 to +50 deg C
Sealing IP67

Associated Equipment:

The following devices are also part of the system

SOL4TXR Robust SOLO4 Transmitter
SOL4RXR Robust SOLO4 Receiver

Product Code:

SOLAMPR1W-125250
SOLAMPR1W-310340
