The most important thing we build is trust

Heavy Duty Ejector Release Unit

ERU-120

COBHAM

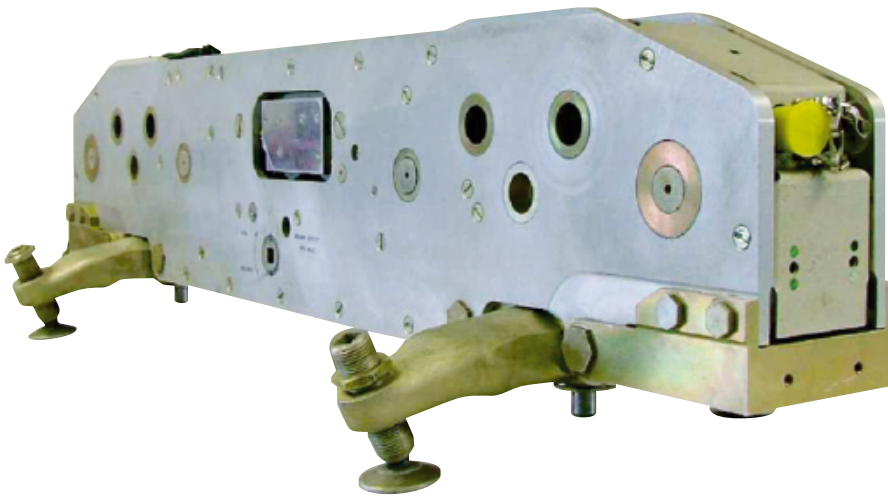

The Ejector Release Unit (ERU) 120 series provides a consistent and reliable heavy duty capability for ejection of both 1000lb and 2000lb NATO class stores from fast jet or large aircraft. The ERU 120 series encompasses a low weight, high strength design with proven reliability in service for over 20 years. Its continued success combined with ease of maintainability has ensured its operational use throughout the world. The ERU 120 may be integrated into aircraft bomb bays, wing pylons or fuselage stations.

Key Features

- 14" and 30" lug spacing
- Approved cartridges – CERU 204
- 6 month on aircraft servicing period
- EOS velocity typically 15ft/s (for 1000lb store in ambient conditions)

Additional Features Under Development

- Pneumatic actuation
- Manual swaybracing
- 3 position throttle

Heavy Duty Ejector Release Unit – ERU-120

Payload capacity	Up to 2000lb NATO class stores (up to 3500lb)
Weight	67lb/30.6kg
Dimensions (L x W x H)	32 x 3 x 8in 813 x 77 x 204mm
Platform integration	Jaguar, Harrier, Nimrod MRA2
