Bespoke Tool Kits Aligned To Product Maintenance Activities

The most important thing we build is trust

COBHAM

Workshop Tool Kits

Bespoke Tool Kits Aligned To Product Maintenance Activities

In support of user scheduled and corrective maintenance activity related to Cobham's Air-to-Air Refuelling Products, a range of tailored workshop tool kits are offered.

Specifically compiled general tool kits are available for use with Cobham Aerial Refuelling Pods on /off aircraft or in the workshop.

Ground Support Equipment tool kits simplify pod related maintenance tasks by providing all the required tools to complete the activity in a sturdy, portable and secure tool chest.

Refuelling Pod Tool Kits

Comprehensive tool kit includes all standard tools required for Aerial Refuelling Pod maintenance tasks

Performance

Kits may include Cobham Mission Equipment pod specific Ground Support Equipment tools:

- Pod timing and setup tools and gauges
- Hose Drum Locking Pin (GAG)
- Fuel system coupling C-Spanners
- Riveting and fastener replacement tools
- Hose pressure test equipment
- Nitrogen charging adaptors
- Chain breaker / assembly tool
- Hi visibility Foreign Object Damage (FOD) collection bag

Benefits

- Cost savings through reduced maintenance task time
- Workload shadow board inserts promote safe tool control
- No annual calibration or maintenance requirements
- Lockable for security
- Logistically easy to manage and portable for easy deployment

Compatibility

Kits can be tailored to suit the full range of Cobham Mission Equipment products including:

- 500, 700, and 900 series Air-to-Air Refuelling Pods
- 800 series Fuselage Refuelling Units
- Auxiliary Mission Equipment
- Air-to-Air Refuelling Probes
