Cobham to Relocate Facilities to Create Avionics Center of Excellence in Arizona

ARLINGTON, Virginia – two Cobham facilities in Aurora, Oregon and Bothell, Washington are to be merged to create an avionics center of excellence at the company's existing Avionics facility at Prescott, Arizona. The move will establish an integrated development base for communication products in Prescott and will result in the release of about 150 employees.

"This consolidation is part of the continued transformation of Cobham Avionics and will enable us to better serve our customers and focus on the development of new avionics products," said Mike Sheehan, Vice President of Cobham Avionics.

About Cobham:

Cobham's products and services have been at the heart of sophisticated military and civil systems for more than 70 years, keeping people safe, improving communications and enhancing the capability of land, sea, air and space platforms. The Company has four divisions employing more than 12,000 people on five continents, with customers and partners in over 100 countries and annual revenue of more than £1.4 billion / US\$ 2.1 billion.

Cobham Avionics provides integrated, end to end avionics solutions for fixed-wing and rotorcraft markets covering general aviation, special mission, military training, business and commuter, airline transport fixed-wing and rotorcraft markets. Leveraging a global presence, both FAA and EASA certifications, a broad technology base, and existing original equipment manufacturer positions with Agusta, Airbus, Bell, Boeing, Bombardier, Dassault, Eurocopter and Raytheon, Cobham Avionics offers high value solutions for virtually any avionics application.
